

## Solving Calculations on Either Side:

$$27 + 13 = \boxed{\phantom{00}} + 4$$

|                                      |   |   |   |   |   |                      |   |   |
|--------------------------------------|---|---|---|---|---|----------------------|---|---|
| 2                                    | 7 | + | 1 | 3 | = | <input type="text"/> | + | 4 |
| <hr style="border: 2px solid red;"/> |   |   |   |   | = |                      |   |   |
|                                      | 4 | 0 |   |   |   |                      |   |   |

$$15 + 6 = 27 - \boxed{\phantom{00}}$$

## Solving Calculations on Either Side:

$$\boxed{\phantom{000}} - 50 = 75 + 25$$

$$53 + \boxed{\phantom{000}} = 26 + 49$$
